## DNREC MISSION STATEMENT

---

The mission of the Department of Natural Resources and Environmental Control is to ensure the wise management, conservation, and enhancement of the State's natural resources, protect public health and the environment, provide quality outdoor recreation, improve the quality of life and educate the public on historic, cultural, and natural resource use, requirements and issues.

**Front Cover:** *This is a picture of the Indian River Power Plant located near Millsboro. This facility is an important producer of electricity for the region. Although this facility is ranked #1 in on-site TRI chemical releases, it has reduced those releases to air for 2008 by 11% through the use of lower sulfur coal while increasing power production.*
